

RECKLESS PILE

BAND BIOGRAPHY

Back in 2018, the two friends Max (guitar, backing vocals) and Marc (lead vocals) sat together, listened to their favourite bands and drank a couple of beers, which led to the idea of getting together and jamming some of their favourite songs. Soon, they found new musicians with their friends Henning (bass guitar), Erich (drums) and René (rhythm guitar) who completed the band. Their passion for heavy metal culminated in the release of their first self-produced EP, “Hell of a Night”, in 2021. Since then they got more experienced and released 2 more EPs, with the latest being professionally produced by Twinwood Records. Over the years they played in many locations in Germany, such as AJZ Chemnitz, KuBa Jena, Club Comet Guben, Alte Brauerei Annaberg and more.
